4.- CONTENIDOS

Resources and Materials for the Language Classroom.

Evaluation, Selection and Adaptation of Materials and Resources for Primary English Class.

Design and Creation of Materials and Resources for the Primary English Class.

5.- METODOLOGÍA DOCENTE

In line with the methodological approach defined at CES Don Bosco, we will develop a methodology that goes beyond presenting the content, transmitting the "what". We understand that our mission is to mediate in order to build that content, preparing students to be able to build it on their own and transfer it to their future professional context. This involves teaching people to think in a well-founded, orderly, effective and practical way that encourages maturity and autonomy. To do this, we will use varied thinking techniques that will allow students to structure, deepen and streamline some cognitive processes; specific analysis, establish connections with others, promote knowledge (metacognitive processes). This will help balance the development of the capacities. We will rely on techniques such as critical thinking activities, interview...

To give solidity to the structures we want our students to build, we will support the development of techniques in graphic and visual organizers. In this way, the mental processes that we want to stimulate and strengthen are being built with the content and are "visualized" better.

Throughout the course, we will propose activities to be carried out individually, in pairs, in small heterogeneous teams and in large groups. We will apply techniques typical of the cooperative learning strategy, such as team work. Likewise, we will take advantage of the possibilities offered by the effective integration of technical devices (flexibility, interactivity, simulation of educational realities...) to improve learning experiences and achieve the planned objectives. For this we will use tools like Kahoot, Mentimeter and others.

6.- EVALUACIÓN

6.1. Criterios de Evaluación

Con el objetivo de constatar la adquisición de las competencias descritas, se emplean técnicas de evaluación variadas. Para obtener la nota final aprobada, es necesario alcanzar al menos el 50% de la puntuación máxima en cada una de ellas.

Se tendrá en cuenta la asistencia regular del estudiante (no menos del 75%) para la calificación, tanto en primera como en 2ª convocatoria, de las técnicas de evaluación que requieran presencialidad.

Es decir, aquellas técnicas que evalúan competencias como destrezas de trabajo en equipo, estrategias de comunicación interpersonal y oral, en otras, requieren la participación activa del estudiante en el desarrollo de las clases. Además, por su propio carácter (trabajos y casos prácticos grupales, exposiciones, debates...) no pueden ser realizadas en otro momento ni sustituidas por otras.

El profesor, en el desarrollo de su docencia, podrá incluir requisitos de evaluación para las diferentes técnicas que se detallarán en las plantillas o rúbricas de evaluación pertinentes.

CRITERIOS COMUNES DE CORRECCIÓN

Penalización del plagio o intentos de engaño en las técnicas de evaluación, suponiendo la pérdida de la convocatoria. El docente estimará si precisa aplicar técnicas complementarias en caso de detectarlo.

Realización y entrega en fecha y forma establecida las actividades y trabajos encomendados.

Para la cita y referencia de fuentes de información de los trabajos académicos, el alumnado debe seguir las recomendaciones de las normas APA 7º Ed.

Ortografía en los trabajos académicos y en las pruebas escritas: Entendemos que el alumnado universitario tiene asumidas las capacidades lingüísticas en relación a la expresión oral y escrita. Por tanto, es primordial y obligatorio la corrección ortográfica (ortografía, acentuación y puntuación), gramatical y léxica en los trabajos y exámenes realizados como condición imprescindible para superar la asignatura.

En los criterios de evaluación, se atenderán las indicaciones que el SQUAE haga llegar al profesorado del alumnado con Necesidad Específica de Apoyo Educativo

General and common evaluation criteria to be applied in the subjects of the Degree:

- The plagiarism in the works and the attempts of cheating in the exams will entail a fail mark in the current call.
- To pass every type of evaluation techniques, a minimum of 5 out of 10 must be obtained.
- The marks/activities already passed in the 1st call are kept for the July call.

Students will have to read two or three short books in English every term. They will read it at home, but we will comment on the books in class, mentioning vocabulary or expressions that students don't know

and will enrich their level of English. Students will have to answer one or two questions about the book in the exam, as well as being asked about the vocabulary/ expressions mentioned in class. The book is a compulsory part of the module. The exam will not be considered passed without passing the books.

ALUMNOS DE SEGUNDAS Y SUCESIVAS MATRÍCULAS

Para el alumnado de segundas y sucesivas matrículas se tendrán en cuenta los criterios generales de evaluación.

Evaluation of students who repeat the subject:

Examination of the material uploaded to the platform (50% of the grade).

Final project (50% of the grade). This consists of the creation of a microteaching that lasts between 7 and 10 minutes. It must include a description of the session, group, objectives, materials and timing. Details will be provided about the theme, structure...

The student will present it in a video call with other classmates or he/she will send a previously recorded video. If that is the case, in the presentation you must address the camera as if it was a student and explain how it will work. Also, you must send or upload a document with all the information required about the session. Should be perfectly adequate to the level of the course you have chosen.

The use of English in exams, tests, presentations will be taken into account when assessing them. The teacher will mark them down if there are mistakes in spelling, grammar, confusing ways of expressing ideas, etc., both written and spoken.

One of the language skills that is assessed in Bilingual coursework is language accuracy and control - what can also be described as "correctness".

Although some errors may not affect exam marks significantly, systematic repetition of basic errors will.

The following basic mistakes are well below the language level we are working on in class (Upper-Intermediate, B2 CEF):

- 1.- Using modal verbs with a full infinitive, e.g. *You should to tell her the truth.
- 2.- Sentences without a subject (noun or pronoun), e.g. (You) *Shouldn't listen to her.
- 3.- Wrong use of possessives pronouns and determiners. E.g. *She should think about your own future.
- 4.- Wrong use of personal pronouns: him / her / he / she. E.g. *Give it to she.
- 5.- Wrong concordance subject-verb, especially 3rd person singular Present without -s.
- 6.- Wrong use of auxiliaries. E.g. *She don't can speak French.
- 7.- Adjectives after (not before) nouns, e.g. *A house big.
- 8.- Writing *"I'm agree" instead of "I agree".
- 9.- Making "plural" adjectives, when they are invariable. E.g. *She has differents ideas

It is strongly recommended that you study the list and make sure you do not make these mistakes repeatedly.

Students will have to read a book in English every term. They will read it at home, but we will comment on the book in class, mentioning vocabulary or expressions that students don't know and will enrich their level of English. Students will have to answer

one or two questions about the book in the exam, as well as being asked about the vocabulary/ expressions mentioned in class. The book is a compulsory part of the module.
